

MODEL 3

PARTS CATALOG

The Parts Manual contains three categories of parts: Restricted, Unrestricted, and Over-the-Counter.

Restricted Parts

- Restricted parts include structural parts (parts that are bonded, riveted, or welded on the vehicle), and airbag (SRS) and high voltage related parts.
- These parts are indicated in the Parts Manual by the entry “Restricted” in the “Category” column.
 - Parts orders for restricted parts require a VIN.
 - Restricted parts are never sold directly to customers or third parties, or for unsupported vehicles. Refer to SI-14-00-013, “Disabling Unsupported Vehicles And Enabling Redeemed Vehicles” for more information on Tesla’s policy on unsupported vehicles.
 - Restricted parts are only sold to Tesla Approved Body Shops for supported vehicles.

Over-the-Counter Parts

- Over-the-counter parts include common wear items, such as wiper blades or brake pads.
- These parts are indicated in the Parts Manual by the entry “OTC” in the “Category” column.
 - Parts orders for over-the-counter parts do not require a VIN.
 - Over-the-counter parts can be sold to anyone, including customers and third parties.

Unrestricted Parts

- Unrestricted parts are any parts that aren’t restricted or classified as over-the-counter.
- These parts are indicated in the Parts Manual by the entry “Unrestricted” in the “Category” column.
 - Parts orders for unrestricted parts require a VIN.
 - Unrestricted parts are never sold to anyone for unsupported vehicles.
 - Unrestricted parts can be sold to customers and third parties for supported vehicles.

Symbol	Meaning
*	Not illustrated
**	As needed

Tip: For ease of reference, the sections and subsections of this Parts Catalog, the FRT Manual, and the Service Manual are nearly identical.

Note: The quantity stated for a part is the number of times that the part is used within that specific section or subsection.

1001 - Bumper and Fascia
